

GEORGE MASON UNIVERSITY
Academic Affairs Committee Meeting

Wednesday, September 10, 2025; 8:30 a.m.

AGENDA

I. Call to Order

II. Approval of Minutes (Action Item)

- A. Minutes for meeting on April 17, 2025

III. New Business

- A. Provost's Update (J. Antony)

- B. Enrollment Update (D. Burge & A. Byrd)

- C. Higher Education Budgeting (J. Antony)

- D. Program Actions (**Action Items**)

- 1. Organizational Changes

- a. CEHD: Replacing School of Education, School of Kinesiology, and the School of Sport, Recreation, and Tourism Management with four (4) new departments: 1) Department of Special Education and Disability Research; 2) Department of Teaching and Learning; 3) Department of Kinesiology, Sport, and Hospitality Management; and 4) Department of Counseling, Leadership, and Educational Sciences.

- b. COS: Renaming the Department of Atmospheric, Oceanic, and Earth Sciences to the "J. Shukla Department of Atmospheric, Oceanic, and Earth Sciences."

- 2. Closed Degree Program

- a. Taxation MS

- E. Faculty Actions (**Action Items**)

- a. Conferral of Emeritus/Emerita Status

- b. Elections of New Tenured Faculty

- F. Announcements

- 1. Appointment of Faculty

- 2. Appointment of Administrative and Professional Faculty

- 3. Appointment & Reappointment of Deans, Department Chairs and School Directors

- 4. Renewals and Reappointments

- 5. Separations

- 6. Other Announcements

- 7. Summary Sheet- September 2025

- G. Reports

- 1. 2024-2025 Degrees Awarded

IV. Adjournment

The September 10, 2025, meeting of the Academic Affairs Committee meeting of the Board of Visitors will be held virtually, and may be viewed at <https://bov.gmu.edu/live/>. In the event of a disruption or

failure in the live stream, please call (703)-993-8704 and inform Mason staff of the disruption. Gallery seating and viewing of the session will also be available in Merten Hall 1201. Should the meeting format change, a subsequent notice will be issued in accordance with Virginia Code 2.2-3707. Please be aware that the full board agenda timing is for planning purposes only, the formal meeting could conclude before or after the time noted so participants should plan accordingly.

Written comments will be accepted until the full board meeting adjourns on September 25, 2025. To submit a written public comment, please complete the form at the following link: <https://forms.office.com/r/TfxTXhw5Pt>. Written comments will be entered into the public record of this meeting.

No oral public comment will be taken at this meeting.

GEORGE MASON UNIVERSITY
BOARD OF VISITORS
Academic Programs, Diversity, & University Community Committee

MINUTES

Thursday, April 17, 2025

COMMITTEE MEMBERS PRESENT: Chair: Lindsey Burke; Visitors: Charles Cooper, William Hansen, Mike Meese, Maureen Ohlhausen, Jeff Rosen; Staff Representatives: Provost Jim Antony, Sharnnia Artis, Rose Pascarell; Faculty Senate President: Solon Simmons; Staff Senate Chair: Rachel Spence; Faculty Representatives: Cameron Harris, Melissa Broeckelman-Post; Student Representatives: Maria Cuesta, Carolyn Faith Hoffman

ALSO PRESENT: Rector Stimson, President Washington, Visitors: Reg Brown, Robert Pence, Caren Merrick

I. The meeting was called to order by Chairperson Lindsey Burke at 10:01 a.m.

Chairperson Burke informed the Committee that Visitor Rosen requested to participate remotely due to caregiver responsibilities, Visitor Hansen due to business commitments, and Visitor Cooper due to his principal residence being more than 60 miles from the meeting location. Citing the Board's Electronic Meeting Participation Policy, Chairperson Burke called for any objections. Hearing no objections their remote participation was **APPROVED**.

II. Approval of Minutes (Action Item)

Chairperson Burke called for any corrections to the minutes from the February 13, 2025 APDUC Committee Meeting. Hearing no corrections, the meeting minutes stood **APPROVED** as written.

III. New Business

A. Provost's Update

James Antony – Provost and Executive Vice President

Provost Antony delivered the Provost's Report, opening with excitement about the upcoming spring graduation, which will celebrate more than 6,200 graduates—an increase from the previous year. He announced the appointment of Cody Edwards as the permanent dean of the College of Science following a competitive national search. The provost highlighted key progress on several strategic priorities set earlier in the academic year, including communications, research and the budget model redesign. He also outlined three new initiatives launching this summer: an undergraduate learning supports committee; a committee to develop a blueprint for the future of doctoral, MFA, and postdoctoral education; and an academic landscape analysis to assess academic programs and potential areas of overlap with other universities in Northern Virginia. Provost Antony concluded his report by recognizing several award recipients, including prestigious external honors such as the Guggenheim Fellowship, and several internal awards including the Presidential Awards for Faculty Excellence, Teaching Excellence Awards, OSCAR Excellence Awards, and the Peter N. Sterns Provost

Scholar Athletes.

B. Faculty Senate Update and Proposed Revisions to the Faculty Handbook

Solon Simmons – President, Faculty Senate

Faculty Senate President Simmons reviewed the changes to several academic policies that were approved this year by the faculty including academic policies 2.1.3, 2.12.3, 3.6.2, 2.8.5, and 2.11.2.2.

Chairperson Burke called for a **MOTION** to approve the changes to the Faculty Handbook; Visitor Meese **MOVED**; Visitor Olhausen **SECONDED**.

MOTION CARRIED BY VOICE VOTE.

Yes – 6

Absent – Visitor Prowitt

C. Faculty Actions

Provost Antony provided an overview of the Faculty Actions.

Chairperson Burke called for a **MOTION** to approve the Program Actions and Faculty Actions en bloc; Visitor Olhausen **MOVED**; Visitor Meese **SECONDED** the following program actions:

1. Promotion and/or Tenure
2. Conferral of Emeritus/Emerita Status
3. Elections of New Tenured Faculty
4. Special Rank Change

MOTION CARRIED BY VOICE VOTE.

Yes – 6

Absent – Visitor Prowitt

D. Announcements

Announcements were acknowledged for the Committee's benefit.

E. Committee Name Change

Visitor Burke proposed to change the name of the Academic Programs, Diversity, and University Community Committee to the Academic Affairs Committee and to recommend to the full board that the necessary procedural steps be taken in accordance with the Board bylaws.

F. DEI Discussion

1. Required Diversity Statements and Hiring

Provost Antony clarified that George Mason University has never required diversity statements for faculty hiring and that, while some departments have chosen to include them, it was never a university-wide mandate. Although there has been no prior policy prohibiting their use, the majority of searches at George Mason have not involved such statements. Moving forward, departments are advised not to include diversity statements in job postings. This guidance has been shared and will be included in hiring training sessions. Additionally, diversity statements are not part of the Promotion and Tenure process, which is governed by the Faculty Handbook.

2. Resolution Regarding the Presidential Executive Order on Diversity, Equity, and Inclusion

Committee members engaged in a thoughtful and wide-ranging discussion on Diversity, Equity, and Inclusion (DEI) in response to a proposed resolution. Visitor Burke opened the conversation by emphasizing the university's obligation to comply with federal civil rights laws and protect funding by ensuring George Mason University fosters an environment grounded in equal treatment, merit, and academic excellence. University leaders highlighted the relevance of "The Mason Way" report—a comprehensive overview of George Mason's DEI approach that reflects the institution's distinctive approach to inclusion and compliance. Faculty, staff, and student representatives emphasized that George Mason's interpretation of DEI is rooted in principles of belonging, fairness, and respect for diverse perspectives—framing it differently than some national narratives. Visitor Burke invited Professor Caplan to share his perspective. Professor Caplan voiced concerns about potential long-term impacts of DEI initiatives on academic freedom and expression of diverse viewpoints. Dr. Sharnnia Artis then provided an overview of actions already underway to align the university's practices with current legal guidance. These include the restructuring of offices, realignment of positions, and comprehensive program reviews to ensure continued compliance. The discussion concluded with a shared interest in ongoing dialogue and collaboration, and a recognition of the opportunity to thoughtfully refine the proposed resolution in a way that reflects George Mason Universities values and legal responsibilities.

IV. Adjournment

The meeting was adjourned at 11:36 a.m.

Respectfully submitted,

Sarah Parnell
Secretary Pro Tem

Degree Awards 2024-25

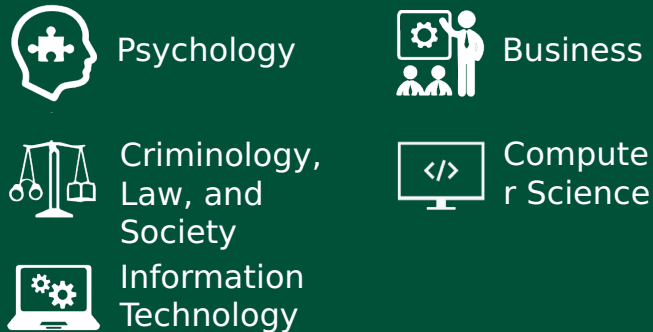

The university conferred a total of 10,395 degrees during the 2024-25 academic year, an increase of 358 awards (4%) compared to last year with 74% of the degrees conferred to Virginia residents.

Top Degree Areas 2024–25

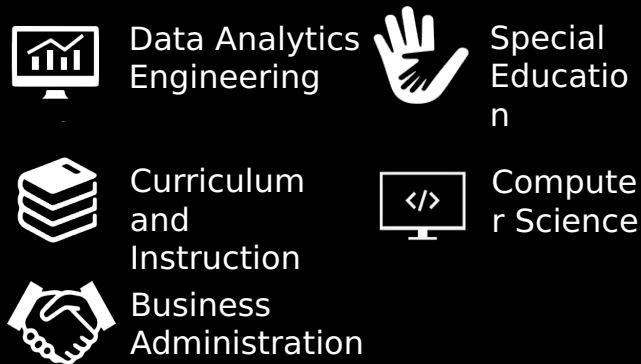

George Mason awarded an increased number of degrees in the STEM (3,737) fields. Teacher preparation programs are among the most productive master's degree programs at George Mason, with 597 MEd awarded in FY25.

The top five undergraduate degree areas were:

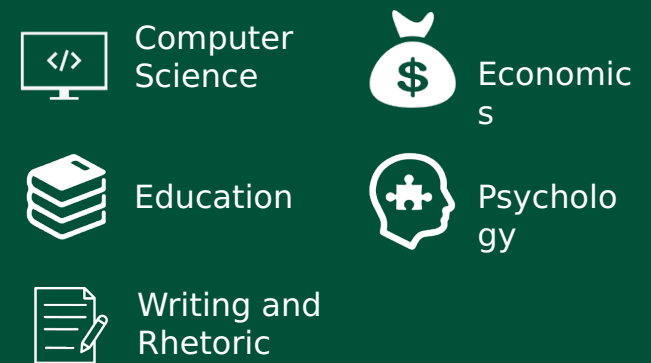

These programs accounted for 43% of the bachelor's degrees awarded.

The top five master's degree areas were:

These programs accounted for 38% of the master's degrees awarded.

The doctoral programs with the most graduates were:

These programs accounted for 37% of the doctoral degrees awarded.

Assistant Provost for Academic Affairs

Professor Melissa Broeckelman-Post has been appointed to the newly created role of Assistant Provost for Academic Affairs, effective August 10, 2025.

Student Highlights

Benjamin A. Gilman International Scholarship

Fourteen George Mason students—from a variety of majors—were chosen as recipients of the U.S. Department of State's competitive, merit-based Gilman Scholarship Program

U.S. Supreme Court

Tiffany H. Bates will serve as a clerk for U.S. Supreme Court Justice Clarence Thomas during the 2026 Term

George Mason Forensics

Prem Ganesan accomplished a feat that has never been achieved in George Mason Forensics history by winning six different national championship events

842 direct admits have enrolled at GMU for fall 2025

Higher Education Budgeting

Budget Model Timeline

Budget Model Redesign Overview

PURPOSE

Create a clear and transparent system for depicting and distributing resources to ensure funding is allocated in alignment with enrollment trends, as well as academic priorities and strategic initiatives.

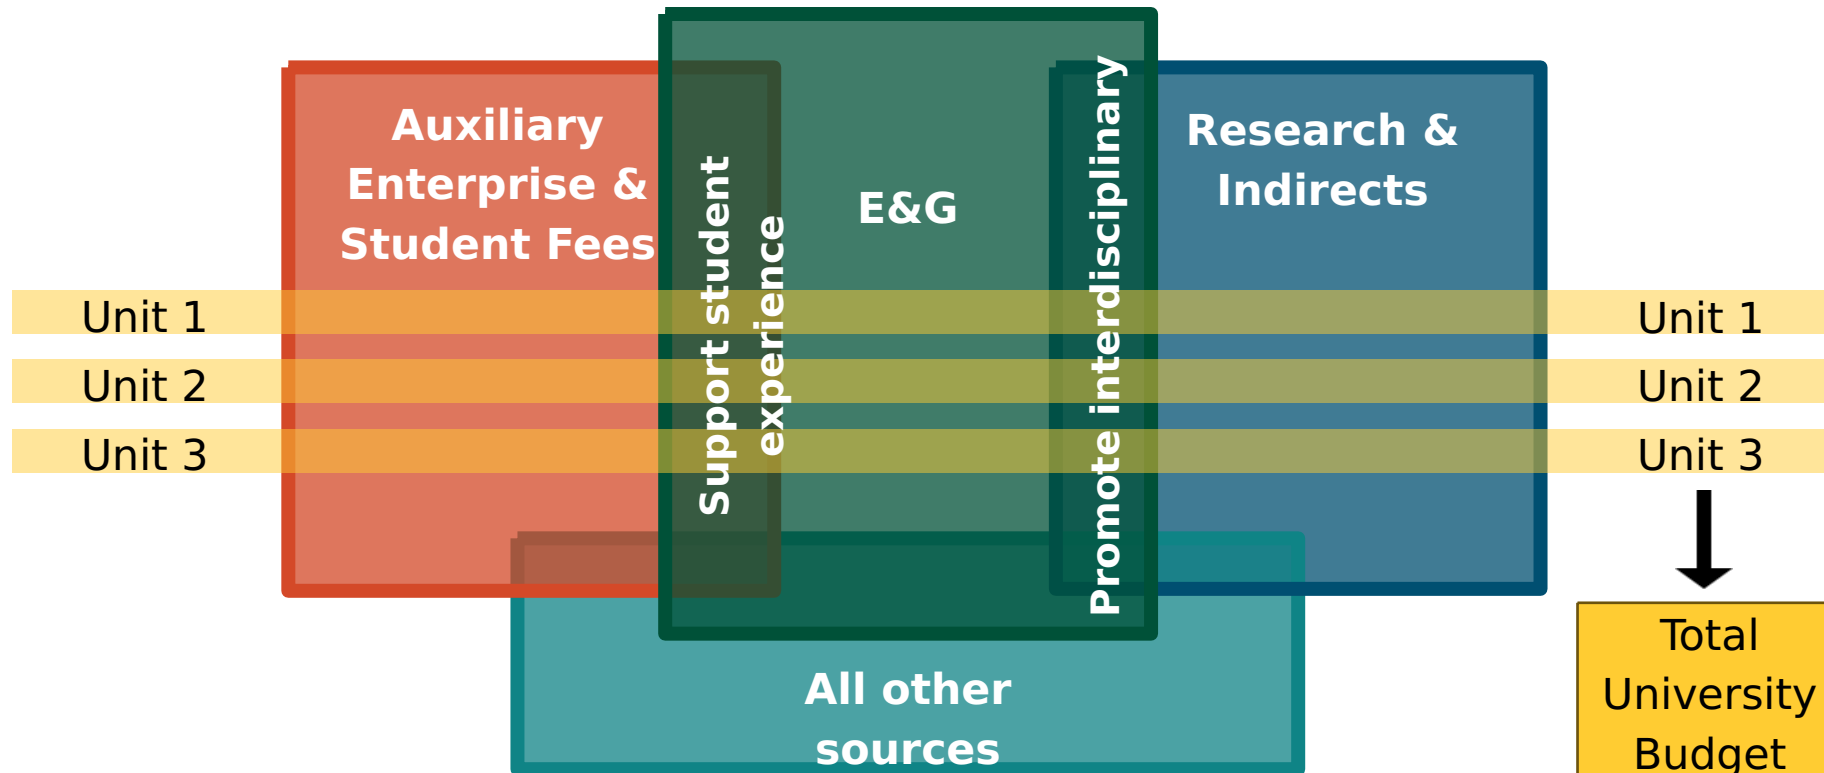

FUNCTION

As a distribution methodology, the budget model DOES NOT create new monies.

SCOPE

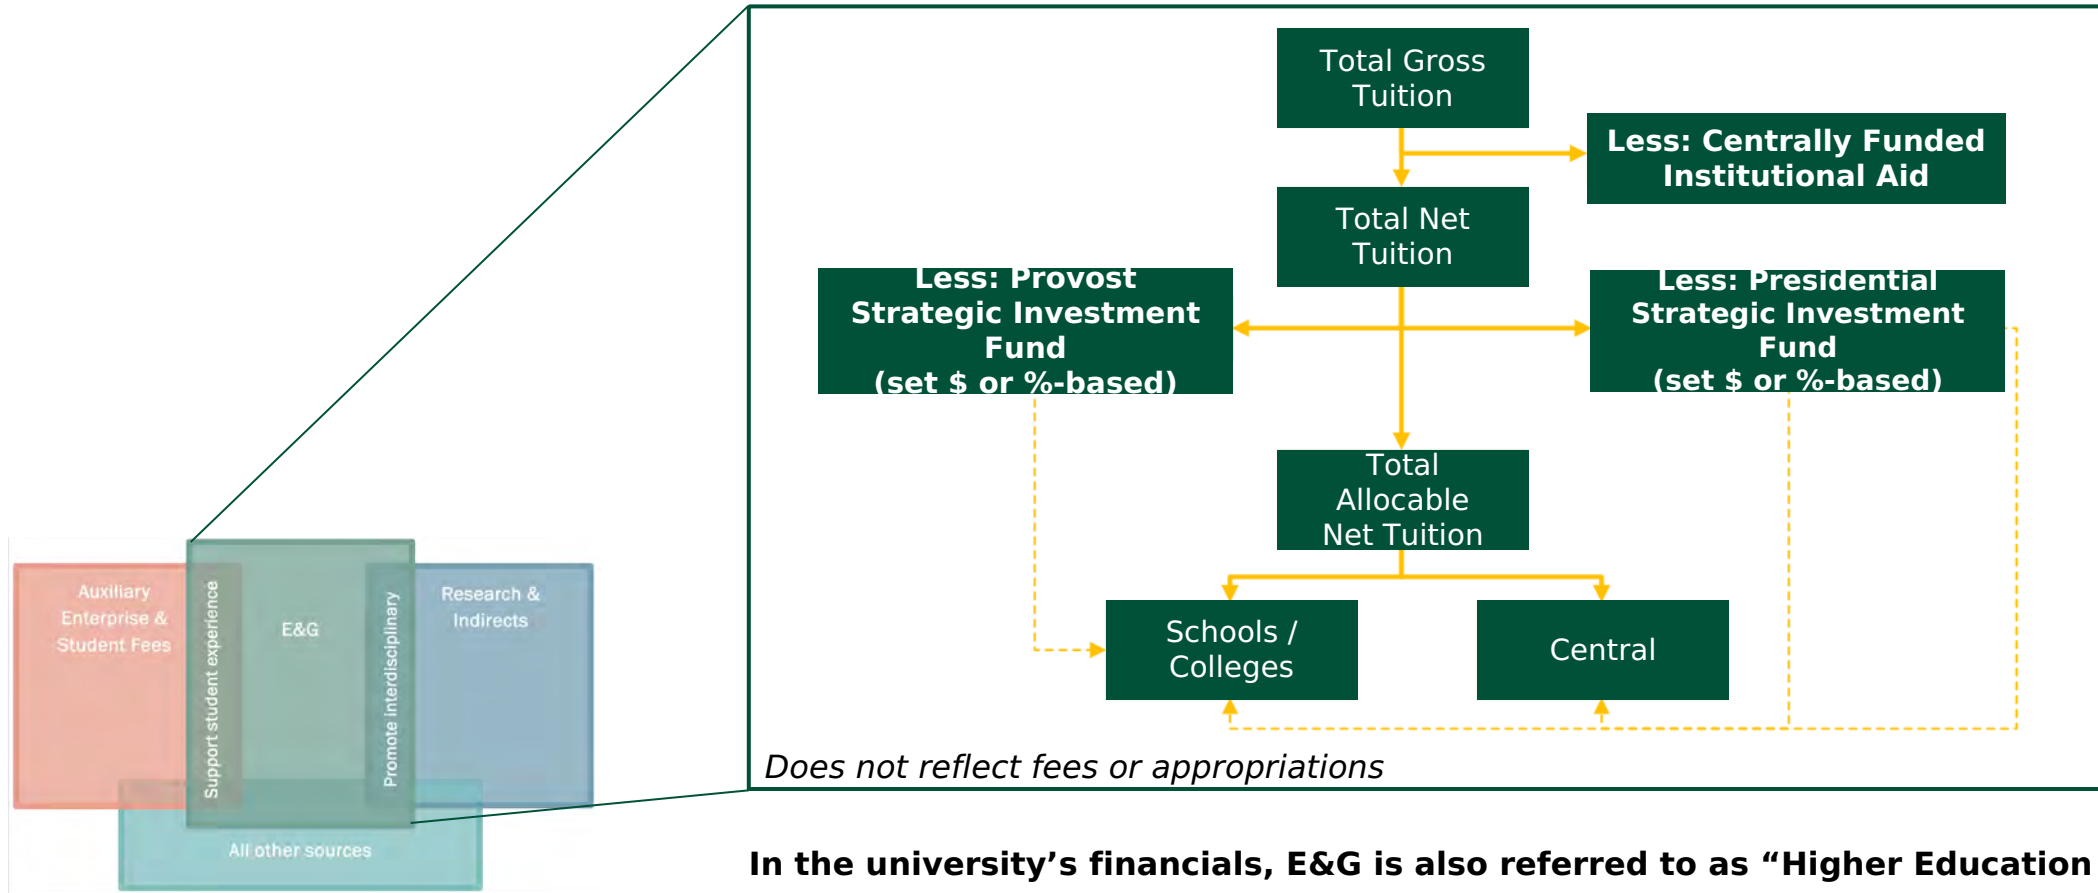

The model's methodology determines revenue distribution to schools, colleges, and central divisions, allowing those leaders to appropriately allocate funds to department, center, and office-level budgets.

Shifting to an All-Funds Budget Model

Leverage all fund sources to accomplish strategic goals

Tuition Allocation Overview

In the university's financials, E&G is also referred to as "Higher Education Operating" or "HEO."

The Upshot

Schools and colleges have P&Ls; allocated tuition revenue and appropriation revenue is visible in our accounting system

All schools and colleges benefit from subsidies, receive central allocations for aid/waivers/discounts, and are reliant on teaching provided by other schools and colleges to fully educate their undergraduate majors

The university's E&G budget is balanced

Other Related Topics

Faculty Vacancies and Searches

Every other month, the Provost's Office budget team meets with each school and college to:

The Mason Core

FOUNDATION

Foundation courses build key knowledge and skills needed for academic success.

EXPLORATION

Exploration courses provide a breadth of learning across the university.

INTEGRATION

Integration courses include upper-division courses that are designed to integrate knowledge and skills learned from Foundation and Exploration courses into the major.

New Budget Model in Summary

 Revenue designed to follow the students

**GEORGE MASON
UNIVERSITY®**

MASON CORE

Laura Wheeler Poms, Mason Core Director

Office of the Provost

Website: masoncore.gmu.edu

Overview

Mason Core is George Mason's general education program that builds the foundation for the Mason Graduate – an engaged citizen and well-rounded scholar who is prepared to act. Mason Core is a set of required courses that create the foundation of a student's undergraduate degree. It provides a breadth of liberal education courses, complementing the depth of knowledge and skills students build in their majors and minors. All undergraduates seeking a baccalaureate degree must complete Mason Core requirements.

Mason Core prepares students for work in their majors and minors, for their careers, and for life-long learning. Foundation courses build key knowledge and skills needed for academic success. Exploration courses provide a breadth of learning across the university. Integration courses include upper-division courses that are designed to integrate knowledge and skills learned from Foundation and Exploration courses into the major. Courses are designed around learning outcomes that help develop the qualities we expect of all students graduating with a Bachelor's degree from George Mason University.

Foundation Requirements (12 credits)

Foundation requirements help ensure that students master the tools and techniques necessary to succeed in college and throughout their lives and careers. These courses emphasize skills—in writing, speaking, and working with numbers and technology—that can be applied to any major field of study and career.

Written Communication (lower-level, 3 credits)

The Mason Core curriculum offers students a unique opportunity to develop writing competencies across their educational experience that prepares them to participate in academic, professional, and civic communities. It does so in part by providing students with a "vertical" writing curriculum: a carefully sequenced series of courses designed to facilitate the long-term growth of writers as they develop expertise in the production and circulation of knowledge across a range of contexts and audiences. Students begin this process at the Foundation level and build higher-level skills at the Integration level in upper-level written communication and in Writing Intensive courses in their majors.

As the first course in George Mason's vertical writing curriculum, students learn to see writing as a social, rhetorical act and are taught to effectively analyze and respond to a variety of writing situations in academic and non-academic contexts through analyzing, researching, and producing texts of varying genres that engage a range of audiences.

Learning Outcomes:

Upon completing the Written Communications (lower-level) course, students will be able to:

1. Analyze and respond to a range of rhetorical situations with increased awareness of the purposes, audiences, and contexts of writing.
2. Develop strategies for anticipating and using audience response as they engage in and reflect upon a recursive writing process that includes exploration, inquiry, and invention, as well as drafting, organizing, revising, peer-reviewing, and editing.
3. Gain emerging college-level proficiency in critically reading and writing nonfiction genres to develop analysis, reflection, exposition, argumentation, and research skills.
4. Use research strategies for topic exploration and refining research questions; locate, select, evaluate, synthesize, and document sources; and incorporate outside facts, perspectives, and ideas in their writing to complicate and extend their own ideas.
5. Develop knowledge of linguistic structures and writing conventions through critical reading and practice (writing and revision) by composing different types of texts based on genre and audience.

Required:

One approved course.

Code	Title	Credits
ENGH 100	Composition for Multilingual Writers(Mason Core)	4
ENGH 101	Composition(Mason Core)	3
ENGH 123	Language-Enhanced Composition for Multilingual Writers(Mason Core)	4

Oral Communication (3 credits)

Oral Communication courses provide foundational skills in public speaking and interpersonal communication that are applicable across disciplines and careers. Through this category, students will be able to develop and deliver well-organized presentations that are supported by credible evidence and tailored to specific audiences, purposes, and contexts. Students will learn to communicate clearly and confidently through both verbal and nonverbal strategies and to engage in meaningful dialogue.

Learning Outcomes:

Upon completing an Oral Communication course, students will be able to:

1. Use high-quality evidence to effectively support the speaker's message in oral presentations.
2. Demonstrate effective verbal and nonverbal communication in presentations.
3. Adapt oral communication messages so that they are appropriate for specific audiences, purposes, and contexts.
4. Explain the principles of interpersonal communication that can be used when presented with perspectives that may differ from one's own.

Required:

COMM 101 should be taken by all students unless their degree program specifies a different requirement.

Code	Title	Credits

INTS 101	Narratives of Identity(Mason Core)	6
INTS 202	Public Speaking and Critical Thinking Skills(Mason Core)	4

¹ Transfer credit for COMM 100 will fulfill the Mason Core Oral Communication requirement.

Quantitative Reasoning (3 credits)

Quantitative Reasoning courses develop critical thinking skills using mathematical and statistical concepts (i.e., formulas, graphs, tables, models, and schematics) to analyze and make sense of data, patterns, and relationships. By learning to evaluate problems using quantitative reasoning, students will be better equipped to make well-supported decisions in personal, academic, and workplace situations.

Learning Outcomes:

Upon completing a Quantitative Reasoning course, students will be able to:

1. Interpret quantitative information (i.e., formulas, graphs, tables, models, and schematics) and draw inferences from them.
2. Formulate a given problem quantitatively and use appropriate arithmetical, algebraic, and/or statistical methods to solve the problem.
3. Evaluate logical arguments using quantitative reasoning.
4. Communicate and present quantitative results effectively.

Required:

One approved course.

Information Technology and Computing (3 credits)

Information technology and computing can significantly augment humans' ability to produce, consume, process, and communicate information. Thus, students need to understand ways to use such technology to enhance their lives, careers, and society, while being mindful of challenges such as security, source reliability, automation, and ethical implications. These factors have made it essential for students to understand how to effectively navigate the evolving technological landscape.

Learning Outcomes:

Upon completing an Information Technology and Computing course, students will be able to:

1. Understand the principles of information storage, exchange, security, and privacy and be aware of related ethical issues.
2. Consume digital information critically, capable of selecting and evaluating appropriate, relevant, and trustworthy sources of information.
3. Use appropriate information and computing technologies to organize and analyze information and use it to guide decision-making.
4. Choose and apply appropriate algorithmic methods to solve a problem.

Required:

One approved course that meets all IT&C requirements or an approved sequence of courses that meet all IT&C requirements.

The following must be taken in sequence:		
PSYC 300	Statistics in Psychology	4
PSYC 301	Research Methods in Psychology(Mason Core)	4
PSYC 372	Biopsychology	3

¹ Please note: Due to the specific design of COMM 320 as an IT&C course at George Mason, students who transfer credit for COMM 320 from another university will not receive IT&C credit.

Exploration Requirements (22 credits)

Exploration requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

Note: Courses within Mason Core can count for more than one category, if approved by the Mason Core committee. Students will be allowed to double count two courses (up to six credit hours) to fulfill their Mason Core requirements. Courses that qualify for double counting will be listed in their individually approved sections.

Arts (3 credits)

George Mason courses in the film making, visual, and performing arts stress generative, inquiry based learning through direct aesthetic and creative experience in the studio environment. Art history courses address the intrinsic relationship of personal and cultural creativity, and the manifestation of aesthetics, visual culture, and visual narrative within historical contexts.

Learning Outcomes:

Courses in the Arts category must meet the first learning outcome and a minimum of two of the remaining learning outcomes. Upon completing an Arts course, students will be able to:

1. Demonstrate an understanding of the relationship among artistic process, a work's underlying concept, and, where appropriate, contexts associated with the work.
2. Identify and analyze the formal elements of a particular art form using vocabulary and critique appropriate to that form.
3. Analyze cultural productions using standards appropriate to the form, as well as the works cultural significance and context.
4. Analyze and interpret the content of material or performance culture through its social, historical, and personal contexts.

5. Engage in generative artistic processes, including conception, creation, and ongoing critical analysis.

Required:

One approved course.

Global Contexts (3 credits)

The goal of the Global Contexts Mason Core requirement is to enable students to explore global#connections through a disciplinary lens and to understand how global systems have created both#interdependence and inequalities that engaged citizens must understand#in order to#work toward#an equitable and sustainable future.

Learning Outcomes:

Upon completing a Global Contexts course, students will be able to:

1. Identify and#explain how patterns of#global connections across nations and/or#cultures#have#shaped societies to create interdependence and#inequality.
2. Use a disciplinary lens to demonstrate knowledge of how at least one nation and/or culture#participates in or is affected by global#contexts.
3. Apply an understanding of one's own positionality within#a globally interdependent#and#unequal#world#to#analyze solutions to global problems.

Required:

One approved course.

Global History (3 credits)

By focusing on historical experiences that reflect the diversity of George Mason's student body, students will be able to see how their families and communities fit within, and contribute to, global history from the pre-modern period to our present day. These courses offer a long-term historical perspective on structural issues challenging our world today, including demographic and environmental changes, national and global inequalities, and the underrepresentation of marginalized groups. Students will gain an understanding of how interconnections and interdependencies have been forged through the global movement of people, pathogens, goods, and ideas.

Learning Outcomes:

Upon completing a Global History course, students will be able to:

1. Identify major chronological developments in global history from the pre-modern period (before 1400 CE) to the present.
2. Communicate a historical argument through writing, speech, and/or digital media using a variety of primary and secondary sources.
3. Apply historical knowledge and historical thinking to contemporary global issues.

Required:

One approved course.

Code	Title	Credits
HIST 125	Introduction to Global History(Mason Core)	3
HIST 394	Globalization and History(Mason Core) ¹	3

¹ Registration limited to students with Junior or Senior standing. Incoming first year students should plan to take HIST 125 to meet this requirement.

Literature (3 credits)

Courses in the Literature category develop students' abilities to read for comprehension, detail, and nuance; identify specific literary qualities of language as employed in texts they read; analyze the ways specific literary devices contribute to the meaning of a text; identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced; and evaluate a critical argument in others' and one's own context.

Learning Outcomes:

Courses in the Literature category must meet a minimum of three learning outcomes. Upon completing the Literature category, students will be able to:

1. Read for comprehension, detail, and nuance.
2. Identify the specific literary qualities of language as employed in the texts they read.
3. Analyze the ways specific literary devices contribute to the meaning of a text.
4. Identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced.
5. Evaluate a critical argument in others' writing as well as one's own.

Required:

One approved course.

JSThis course also fulfills Just Societies learning outcomes.

Natural Science (7 credits total)

Natural Science courses engage students in scientific exploration; foster their curiosity; enhance their enthusiasm for science; and enable them to apply scientific knowledge and reasoning to personal, professional, and public decision-making. Natural Science Lab courses must meet all five learning outcomes. Natural Science Overview (non-lab) courses must meet learning outcomes 1 through 4.

Learning Outcomes:

Upon completing the Natural Science courses, students will be able to:

1. Understand how scientific inquiry is based on investigation of evidence from the natural world, and that scientific knowledge and understanding: a) evolves based on new evidence, and b) differs from personal and cultural beliefs.
2. Recognize the scope and limits of science.
3. Recognize and articulate the relationship between the natural sciences and society and the application of science to societal challenges (e.g., health, conservation, sustainability, energy, natural disasters, etc.).
4. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
5. Participate in scientific inquiry and communicate the elements of the process, including: a) making careful and systematic observations, b) developing and testing a hypothesis, c) analyzing evidence, and d) interpreting results.

Required:

Seven (7) credits in total. Four (4) credits must include laboratory experience, either as an approved combination of lecture and lab or as a 4 credit course with lab. The remaining 3 credits are fulfilled by any approved Natural Science course, with or without lab.

Approved combinations of lecture and lab sections (4 credits)

Note: The lecture components of the approved combinations listed below can be taken alone to fulfill 3 credits of the Natural Science requirement, or they can be paired with the lab component to fulfill 4 credits of the Natural Science lab requirement. The lab components of the approved combinations below must be taken after or concurrently with their approved lecture.

Social and Behavioral Sciences (3 credits)

Students will develop the ability to explain how individuals, groups, or institutions are influenced by contextual factors; demonstrate awareness of changes in social and cultural constructs; and use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles, and theories in analysis of significant human issues, past or present.

Learning Outcomes:

Upon completing a Social and Behavioral Science course, students will be able to:

1. Explain how individuals, groups, or institutions are influenced by contextual factors.
2. Demonstrate awareness of changes in social and cultural constructs.
3. Use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles, and theories in the analysis of significant human issues, past or present.

Required:

One approved course.

JSThis course also fulfills Just Societies learning outcomes.

Just Societies (optional flag)

In addition to covering content related to the designated category, Exploration-level courses that are marked with an optional Just Societies "flag" are specifically designed to help students learn how to interact effectively with others from all walks of life, including those with backgrounds and beliefs that differ from their own. These courses focus on understanding key terms commonly used in society and the workplace today, engaging with peers effectively while using these terms, and collaboratively identifying processes for change when warranted.

While not required, students who wish to increase their knowledge and skills in this area may choose to enroll in a Just Societies-flagged course. Students interested in this approach to completing their Mason Core Exploration Requirements should work closely with their advisor to identify the appropriate Just Societies-flagged courses.

Learning Outcomes:

Upon completing a Just Societies-flagged course, students will be able to demonstrate the following competencies:

1. a) Define key terms related to justice, equity, diversity, and inclusion as related to this course's field/discipline and
b) Use those terms to engage meaningfully with peers about course issues.
2. Articulate obstacles to justice and equity, and strategies for addressing them, in response to local, national, and/or global issues in the field/discipline.

WMST 208	Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies(Mason Core)	3

Integration Requirements (9 credits)

Integration requirements represent the culmination of knowledge and skills learned throughout a student's undergraduate career at George Mason, both through the Foundation and Exploration levels of Mason Core and through the coursework within their majors. Within a disciplinary context, students further refine the communication, critical thinking, and problem-solving skills that are imperative for their careers, for engaging in the world around them, and for life-long learning.

Written Communication (upper-level, 3 credits)

As the second course in George Mason's vertical writing curriculum, students build on their understanding of rhetorical and genre awareness and writing processes begun in Foundation-level Written Communication through advanced rhetorical analysis, inquiry-based research into a variety of scholarly and public perspectives, and writing oriented toward investigating, engaging with, and responding to meaningful disciplinary questions in a variety of academic and non-academic writing contexts. Across the Foundation and Integration-level Written Communication courses, students learn to use writing to explore, construct, and communicate knowledge. These skills are built upon in Writing Intensive courses where students engage with increasingly complex rhetorical and field-specific problems, issues, or areas of inquiry and creativity.

Learning Outcomes:

Upon completing the Written Communication (upper-level) course, students will be able to:

1. Analyze rhetorical situations—audience, purpose, and context—in order to recognize the expectations of readers and understand the main purposes of composing across multiple contexts relevant to their fields of study.
2. Understand the conventions of academic and non-academic genres, to include usage, specialized vocabulary, format, and attribution/citation systems.
3. Apply critical reading strategies that are appropriate to advanced academic and non-academic texts of relevance to their fields of study.
4. Identify and synthesize multiple perspectives in articulating and refining a research question relevant to their fields of study.
5. Engage in a recursive process of inventing, investigating, shaping, drafting, revising, and editing to produce a range of academic and non-academic texts of relevance to their fields of study.

Required:

One approved course.

Code	Title	Credits
ENGH 302	Advanced Composition(Mason Core)	3

Writing Intensive (usually 3 credits)

As part of the university's commitment to student writers in all undergraduate programs, at least one upper-division course in each major is designated as fulfilling the Writing Intensive (WI) requirement. As the third course in George Mason's vertical writing curriculum, WI courses build upon the knowledge and skills that students develop in their written communication courses at the Foundation level and at the Integration level. To do so, WI courses further integrate rhetorical and field-specific knowledge as students engage the specific writing, critical thinking, and problem-solving methods of their chosen fields across a range of academic, professional, and civic contexts.

Learning Outcomes:

Upon completing a Writing Intensive Course, students will be able to:

1. Use informal or formal writing in ways that deepen their awareness of the field of study and its subject matter (Writing to Learn).
2. Compose one or more written genres specific to the field of study in order to communicate key ideas tailored to specific audiences and purposes; genres may be academic, public, or professional (Writing to Communicate).
3. Draft and revise written works based on feedback they receive from instructors and peers, using strategies appropriate to the genre, audience, and purpose (Writing as a Process).

Required:

One approved course.

Note: Students MUST select the course approved for their major. See specific degree program for details.

Mason Apex (minimum 3 credits)

Mason Apex courses or in some cases, sequence of courses, will provide George Mason students with a high-impact culminating experience, requiring students to utilize critical thinking skills and preparing them for life-long learning. Students are challenged to draw connections across their George Mason undergraduate academic experience. Mason Apex courses provide students opportunities to apply and communicate their knowledge, and involve integrative, applied, or experiential projects.

Learning Outcomes:

Upon completing a Mason Apex course, students will be able to:

1. Integrate skills, abilities, theories, or methodologies gained across a Mason student's undergraduate education to explore complex issues in original ways.

2. Communicate effectively the results of the student's work with awareness of audience, purpose, and context using an appropriate modality (for example: written, oral, visual, material, embodied, multimodal).

Required:

A minimum of 3 credits at the 400-level. It is suggested that students enroll after completing 85 credits. These courses maintain a faculty/instructor/mentor-to-student ratio of no more than 1:35.

Note: Existing 300-level courses designated as Mason Apex within the current catalog will continue to meet the category requirements.

ITEM NUMBER:

George Mason University Organizational Change

PURPOSE OF ITEM:

The proposal for an organizational change to reorganize the College of Education and Human Development (CEHD) is in development for submission to the State Council of Higher Education for Virginia (SCHEV). Prior to SCHEV submission, Board action is required.

APPROPRIATE COMMITTEE:

Academic Affairs Committee

BRIEF NARRATIVE:

In 2019, the College of Education and Human Development (CEHD) reorganized from two schools into three schools, including seven divisions within one school, for a total of 10 academic units, each requiring its own director and related support. Since that time, CEHD leadership has evaluated the effectiveness of this model in fulfilling the college's mission, serving students, and sustaining program excellence. That review has shown the need for a more streamlined, transparent, and strategically aligned structure that strengthens academic leadership, optimizes resources, and positions the college for long-term success.

The proposed four-department structure consolidates the current 10 academic units into four discipline-aligned departments, each led by a single Department Chair, consistent with academic unit structures across the university. This change reduces the number of leadership roles from three School Directors and seven Division Directors to four Department Chairs, simplifying decision-making, reducing administrative layers, and creating a more direct line of accountability from program leadership to the Dean.

By aligning related programs within departments, the structure will foster more effective collaboration among faculty, enhance program identity, improve advising and mentorship, and promote innovation in teaching and research. This streamlined model eliminates overlapping administrative functions, realigns resources to achieve the greatest impact, and allows the college to respond more quickly to new opportunities, workforce needs, and external partnerships. It advances CEHD's commitment to academic excellence, efficient and accountable governance, and student success.

REVENUE IMPLICATIONS:

The proposed organizational change will be implemented within existing resources. No additional funding will be requested from the Commonwealth to initiate or sustain the new structure.

STAFF RECOMMENDATION:

Staff recommends Board approval.

ITEM NUMBER:

George Mason University Organizational Change

PURPOSE OF ITEM:

The proposal for an organizational change to rename the Department of Atmospheric, Oceanic, and Earth Sciences in the College of Science is in development for submission to the State Council of Higher Education for Virginia (SCHEV). Prior to SCHEV submission, Board action is required.

APPROPRIATE COMMITTEE:

Academic Affairs Committee

BRIEF NARRATIVE:

Dr. Jagadish Shukla served at George Mason University as a Distinguished University Professor of Earth Sciences and Global Change from 1994 until his retirement effective June 30, 2025. During his tenure, he served as Director of the PhD in Climate Dynamics degree program and as Managing Director of the Center for Ocean-Land-Atmosphere Studies (COLA). Dr. Shukla was founding chair of the Department of Atmospheric, Oceanic, and Earth Sciences (AOES). The department has been a leader in research funds to the university and is an integral component in George Mason's R-1 designation.

Dr. Shukla is among the most productive and influential scientists in the area of climate variability and change, predictability and prediction. During his more than 40 years in weather and climate research, Dr. Shukla has led the field, either through his own scientific contributions or by creating lasting, high-impact institutions within the U.S. and other countries. Later this year, Dr. Shukla will be elected to the Virginia Academy of Engineering, Science, and Medicine.

In 2024, Dr. Shukla completed \$800,000 in donations to the George Mason University Foundation, Inc., in addition to other donations of more than \$210,000. The recent \$800,000 donation created the "Jagadish and Anastasia Shukla AOES Fellowship Endowment" for students in the PhD in Climate Dynamics degree program. In recognition of Dr. Jagadish Shukla's scientific contributions and generosity, the College of Science proposes that the Department of Atmospheric, Oceanic, and Earth Sciences be renamed to the "J. Shukla Department of Atmospheric, Oceanic, and Earth Sciences."

REVENUE IMPLICATIONS:

The proposed organizational change will prompt updates to digital and physical materials. No new resources will be requested from the Commonwealth to initiate or sustain the organizational changes.

STAFF RECOMMENDATION:

Staff recommends Board approval.

ITEM NUMBER:

Master of Science (MS) in Taxation Degree Program Discontinuance

PURPOSE OF THE ITEM:

A proposal to discontinue the MS in Taxation degree program has been prepared for submission to the State Council of Higher Education for Virginia (SCHEV). Prior to SCHEV submission, Board action is required.

APPROPRIATE COMMITTEE:

Academic Affairs Committee

BRIEF NARRATIVE:

The Donald G. Costello College of Business is requesting permission to close the MS in Taxation degree program and to officially cease admissions immediately. The MS in Taxation was approved by SCHEV for initiation in 1991.

The decision to discontinue the degree program in MS in Taxation is the result of the fact that this program was never launched. The degree program was developed in response to a specific industry request to be delivered in a closed cohort. The company ended up pulling the funding for the program and, thus, the degree program was never delivered. While the degree program had not been listed in the university catalog for several years, SCHEV's audit of the university's catalog in 2022 revealed that the MS in Taxation was still listed on SCHEV's Degree Inventory. In response, the Costello College of Business reinstated the degree program into the catalog while the college explored the current market conditions for this type of degree program. After an analysis by George Mason and that of a partner, Eduventures, it was determined that there was not sufficient demand for a master's-level degree program in taxation, given the trends in accounting and tax.

There are no students enrolled in the MS in Taxation degree program. No students have "stopped out" of the MS in Taxation. No teach out plan is necessary. No faculty positions will be eliminated as a result of the discontinued degree program. The Dean of the Donald G. Costello College of Business supports the proposal to officially discontinue the MS in Taxation.

REVENUE IMPLICATIONS:

The closure of the MS in Taxation is expected to be budget neutral.

STAFF RECOMMENDATION:

Staff recommend closure of this program.

Gregory Washington, President

From: Rick Davis, Dean 
College of Visual and Performing Arts

Subject: Emeritus Designation for Edward Gero

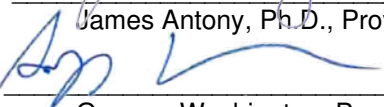

Date: July 15, 2025

I strongly recommend Emeritus designation for Edward Gero, Professor of Theater, who retired at the end of the 2024-25 academic year after a 33-year career teaching acting, script analysis, and other subjects at George Mason University. Ed is one of the founding members of the Institute of the Arts, the innovative experiment in arts education begun in 1990 that led to today's CVPA.

He came to GMU having already established himself as a leading actor in the Washington, DC metro area, joining the acting company of the Folger Shakespeare Theatre (today's Shakespeare Theatre Company, where he continues to play leading roles). His career came to include appearances on film as well as a steady stream of important work in classical and contemporary drama at theaters such as Arena Stage, Studio Theatre, our own Theater of the First Amendment, Chicago's Goodman Theater, the Guthrie Theater in Minneapolis, and major productions on both coasts. Perhaps his most nationally-prominent role was as Justice Antonin Scalia in *The Originalist*, which he created at Arena Stage and played across the country and Off-Broadway.

Ed Gero is the very model of the artist-teacher we seek to reward at George Mason. His dedication to his craft influenced generations of students here, and his professional connections nourished his colleagues and helped shape the curriculum, helping to guarantee that our program in theater delivers a strong, relevant, and rigorous education. He made a difference right away when he joined the young institution, and has kept making a difference throughout three decades of dedicated service.

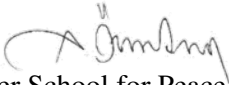

I am very pleased to support his election to Professor of Theater, Emeritus.

Subject: Emeritus/Emerita Designation, ICO Susan F. Hirsch

Date: May 12, 2025

I am pleased to nominate Dr. Susan F. Hirsch for the title of Professor Emerita of Conflict Resolution and Anthropology. Dr. Hirsch joined George Mason University in 2004 as an Assistant Professor and will retire in June 2025 as a Full Professor. Her distinguished career, impactful scholarship, and dedicated service to the Carter School and the broader field of conflict resolution and anthropology merit this recognition.

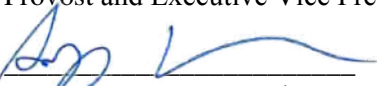

Dr. Hirsch earned her BA in Anthropology from Yale and her PhD from Duke. Her research has shaped the fields of legal anthropology and conflict studies, with a notable focus on terrorism, international justice, feminist legal theory, and environmental conflict. She is widely respected for her empathetic, field-based approach to justice and legal systems.

Her publications include several acclaimed works, such as *In the Moment of Greatest Calamity* (Princeton, 2006), recipient of the Law and Society Association's Jacob Book Prize, and *Pronouncing and Persevering* (Chicago, 1998). She has co-edited key volumes and currently co-edits the *Conflict, Justice, and Social Change* series with Ohio University Press.

Dr. Hirsch has twice served as a Fulbright Lecturer and plays a pivotal role in the Carter School's International Master's Program with the University of Malta. She co-led a U.S. Department of Education grant on experiential learning and was recently appointed Program Officer for the NSF's Law and Science Program.

She has also served as President of the Association for Political and Legal Anthropology, Trustee of the Law and Society Association, and founding director of the Carter School's undergraduate program.

In recognition of her lasting contributions across scholarship, leadership, and public service, I strongly support the designation of Dr. Hirsch as Professor Emerita.

College of Engineering and Computing
Subject: Emeritus Designation for Dr. Qiliang Li
Date: 24 July 2025

I am writing to request that Dr. Qiliang Li be awarded the title Professor Emeritus of Electrical and Computer Engineering (ECE) effective September 25, 2025, effective upon approval of the BOV. Dr. Li received his Ph.D. in Electrical and Computer Engineering from North Carolina State University in 2004. Upon graduating he served three years as a scientist in the Semiconductor Electronics Division of the National Institute of Standards and Technology (NIST) and joined the ECE Department at Mason in 2007. He was promoted to Associate Professor with tenure in 2012, and to Professor in 2017. He held the title of Virginia Microelectronics Consortium (VMEC) Professor from 2007 to 2023 and was a Guest Scientist at NIST during the same period. He retired from Mason in 2024.

During his time at Mason, Qiliang built a strong, nationally and internationally recognized research group in the area of nanoelectronics, semiconductor devices, and sensors. He currently has a Google Scholar h-index of 39 and over 6,200 citations. He was recipient of millions of dollars in external research funding including the prestigious National Science Foundation (NSF) CAREER Award. He graduated 15 PhD students, who all went on to successful careers in industry or academia. He received the Mason Emerging Researcher/Scholar/Creator Award in 2011 and the Rising Star Award in 2012.

Dr. Li was a key member of the Microelectronics group in the ECE department. He developed and taught courses related to microelectronics and semiconductor devices, including fundamental courses. Dr. Li was also active in his professional societies. Among other roles, he served on the Board of Directors of the Electrochemical Society, as Chair of its Electronics & Photonics Division, and as Associate Editor of the IEEE Sensors Journal.

Dr. Li was a highly respected faculty member who contributed towards making microelectronics an area of strength within the ECE Department, both in teaching and research. His nomination has the full support of the outgoing interim Chair of the ECE Department. I recommend that he be granted the status of Professor Emeritus of Electrical and Computer Engineering.

To: Dr. James Antony, Provost and Executive Vice President
Dr. Gregory Washington, President

From: Dr. Cody W. Edwards, Dean, College of Science

Subject: Emeritus Designation for Dr. Robert Sachs

Date: July 8, 2025

Dr. Robert Sachs joined the George Mason faculty on September 1, 1989 and retired on June 1, 2025 with an exemplary record of leadership, teaching, scholarship, research, and service as a Professor in the College of Science. Dr. Sachs retired after 36 years of service and has embodied an outstanding record of achievement in research, scholarship, and education.

I echo the words of the recommending chair in that Dr. Sachs is a “national leader in active learning pedagogy,” specifically as it applies to mathematical sciences and STEM education. Dr. Sachs’ contributions include engaging in a multitude of cross-disciplinary collaborations, engaging in research, and training students, faculty, and other teachers in mathematical sciences. He served two terms as the Chair of the Mathematical Sciences Department where he reworked the math placement process for incoming students as well as led the departmental efforts to create a Ph.D. in mathematics. Dr. Sachs has also provided service outside of George Mason University to include teaching advanced college mathematics courses to a local STEM high school.

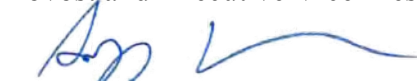

I am pleased to support the nomination of Dr. Sachs for the rank of Emeritus Professor, as recommended by Dr. Maria Emelianenko, Professor and Chair of the Department of Mathematical Sciences. Given Dr. Sachs’ contributions and impact at George Mason and beyond, it seems fitting that we confer this honor effective upon approval by the Board of Visitors.

Subject: Emeritus Designation for Dr. Robert Simon
Date: 24 July 2025

I am writing to request that Dr. Robert Simon be awarded the title Professor Emeritus of Computer Science (CS) effective September 25, 2025. Dr. Simon received his Ph.D. in Computer Science from the University of Pittsburgh in 1996. He joined the CS Department at Mason in 1996. He was promoted to Associate Professor with tenure in 2002, and to Professor in 2015. He retired from Mason in 2025.

During his time at Mason, Dr. Simon made strong research contributions in the areas of embedded systems, real-time networked systems and cybersecurity. He has published over 110 peer-reviewed articles, received 8 Best Paper Awards, graduated 14 PhD students and was co-inventor for 13 patents. He received over \$11M in funding from a wide range of federal agencies and industry partners.

Dr. Simon demonstrated strong commitment to teaching and mentoring. He taught a wide variety of undergraduate and graduate courses. He developed the first course in cybersecurity for the CS department, and was also responsible for the first distance learning courses at Mason. Dr. Simon contributed significantly to department and university-wide service, and was consistently elected by the CS department to serve on P&T, search and performance evaluation committees. He served on the editorial boards of several journals and conference committees.

Dr. Simon was a highly respected faculty member with strong contributions to the CS department in the areas of embedded and networked systems, both in teaching and research. His nomination has the full support of the Chair of the CS Department. I recommend that he be granted the status of Professor Emeritus of Computer Science.

Subject: Emeritus Designation for Lawrence White

Date: June 26, 2025

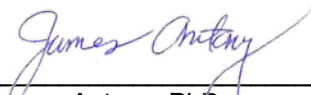

On the recommendation of the Department of Economics, I am pleased to recommend Dr. Lawrence White for appointment as Professor Emeritus, effective upon approval of the BOV.

Lawrence White has had an illustrious career. After receiving his Ph.D. from UCLA in 1982, he served on the faculty at NYU, followed by the University of Georgia, and the University of Missouri – St. Louis. In 2009, Dr. White joined Mason and has served on our faculty as Professor of Economics with honor and distinction for the last 16 years. During these years he has also been a Distinguished Senior Fellow of the F. A. Hayek Program for Advanced Study in Philosophy, Politics and Economics at the Mercatus Center, and has also been a senior scholar of the Cato Institute's Center for Monetary and Financial Alternatives. He has also been a visiting research fellow at the American Institute for Economic Research, a visiting lecturer at the Swiss National Bank, and a visiting scholar at the Federal Reserve Bank of Atlanta. In 2014 he received the Adam Smith Award from the Association for Private Enterprise Education, where he currently serves as Vice President.

Dr. White has created a voluminous body of research. He authored of *The Clash of Economic Ideas* (2012), *The Theory of Monetary Institutions* (1999), *Free Banking in Britain* (2nd ed., 1995), and *Competition and Currency* (1989). He is the editor of *The History of Gold and Silver* (3 vols., 2000), *Free Banking* (3 vols., 1993), and many other volumes. His articles on monetary theory and banking history have appeared in the *American Economic Review*, the *Journal of Economic Literature*, the *Journal of Money, Credit, and Banking*, and other leading professional outlets. His Google Scholar page shows 10,000 citations to his nearly 300 papers and books.

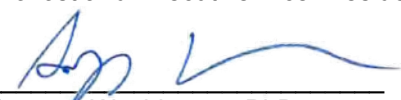

Dr White has been incredibly important to the department and was an inspirational scholar. Generations of students and scholars have been influenced by his work. Based on his distinguished service at GMU, the Economics Department chair and faculty were unanimous and enthusiastic in their support of recommending Lawrence White for Professor Emeritus status.

Subject: Emerita Designation for Sue Wrbican

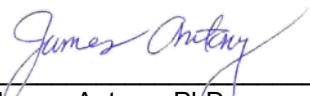

Date: July 15, 2025

I strongly recommend Emerita designation for Sue Wrbican, Professor of Art, effective upon approval by the Board of Visitors. Professor Wrbican retired at the end of the 2024-25 academic year after a highly impactful twenty-year career at George Mason University. During that time she served with distinction as Associate Director of the School of Art and Director of Photography, created a number of courses and programs, and played a key role in the School's strategic planning process.

In parallel with her devotion to institution-building and teaching, Sue has maintained a nationally-recognized creative practice as a photographer, sculptor, installation designer, and video artist. Her monumental outdoor work *Buoyant Force* is on view at the Tephra Institute of Contemporary Art in Reston (in case you want to see for yourself what a brilliant artist she is), joining her distinguished record of more than thirty exhibitions and public art projects during her time with us.

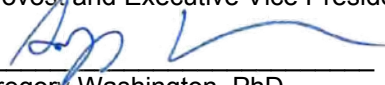

Sue Wrbican is a maker and a builder, both as a creative artist and as an educator. She is precisely the kind of faculty member we seek in CVPA, and has certainly earned election to Emerita status for her tireless and effective work over two decades at George Mason University.

Being appointed to Tenured (Without Term) Positions**

This form must be submitted in Interfolio as part of the Tenured upon Hire case at the Dean's recommendation step.

Pamela Williamson, Associate Professor of Education

Faculty Member's Name and Title

College of Education and Human Development

Local Academic Unit

Verification of Hiring and Trainings:

I verify that all hiring requirements, including reference checks, for the candidate has been completed and the candidate has been informed of all training that need to be completed within the first few weeks of the start of their appointment (including but not limited to DEI trainings: Title IX Overview and Sexual Harassment Prevention, Equal Opportunity: A Fair Shake and Ethics).

One-half page justification for appointment, to include a description of the benefit of this hire for the department, school, etc., as well as the rationale for selecting this candidate over others.

Dr. Pamela Williamson's appointment fills a critical need in the Division of Special Education and Disability Research by bringing her nationally recognized expertise in inclusive education, special education policy, and teacher preparation. With over \$9.4 million in external funding, including a current \$4 million federal EIR grant, Dr. Williamson's research directly supports the Special Education: Students who Access the General Curriculum's goals of advancing evidence-based practices for students with disabilities in inclusive settings. Her work, particularly on coaching general education teachers to implement High Leverage Practices, strengthens our capacity for impactful, community-engaged research and positions us to lead in statewide and national policy conversations. Dr. Williamson's strong record of scholarship, her editorial leadership with TEACHING Exceptional Children, and her current role as President-Elect of HECSE highlight her national standing and align with CEHD's strategic priorities in research, teaching, and advocacy. Her combination of funded research, practitioner-oriented publications, and extensive teaching experience—across all levels—set her apart from other candidates.

Dean

07/17/2025

Date

Pamela Williamson
September 25, 2025

Pamela Williamson, PhD is a candidate for Tenure upon Hire to Associate Professor without Term in the College of Education and Human Development (CEHD). Professor Williamson received her PhD in Special Education, MEd in Elementary Education, and BA in Education from the University of Florida in Gainesville.

Currently, Professor Williamson holds an academic appointment as a Professor of Teaching, Learning, and Curriculum at the University of North Florida and also served as a Chair and Professor for Exceptional, Deaf, and Interpreter Education. Prior to that, she served as an Associate Professor for Special Education Services at the University of North Carolina and as an Assistant Professor at the University of Cincinnati. She has also held a variety of Research Assistant appointments and served as a Qualitative Consultant at the University of Florida.

Professor Williamson's tenure dossier demonstrates that she has established an exceptionally strong record of research, teaching, and service. Her case is strongly supported by all of the CEHD review committees and the Dean of the College. She will be a valued member of our university community and, in my view, is deserving of appointment to the rank of Associate Professor without Term.

Consistent with the unanimous recommendation of the CEHD review committees and the Dean of the College, I recommend that Professor Williamson be granted appointment to the rank of Associate Professor without Term in the College of Education and Human Development, effective September 25, 2025.

*Summary Excludes Postdoctoral Research Fellows and Research Staff

2024-2025 DEGREE AWARDS

George Mason University is a leader in producing qualified graduates at both the undergraduate and graduate levels. The university conferred a total of 10,395 degrees during the 2024-25 academic year, an increase of 358 awards (4%) compared to last year. Of the degrees conferred, 36% were in Science, Technology, Engineering and Math (STEM) fields, with another 8% in health professions. George Mason serves the needs of the Commonwealth, with 74% of the degrees conferred to Virginia residents.

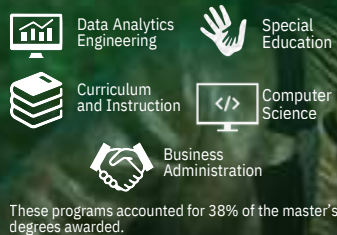

TOP DEGREE AREAS

George Mason serves the Commonwealth by preparing graduates in areas of critical need. George Mason awarded an **increased number of degrees in the STEM (3,737) fields**. Teacher preparation programs are among the most productive master's degree programs at George Mason, with 597 M.Ed. degrees awarded in FY25.

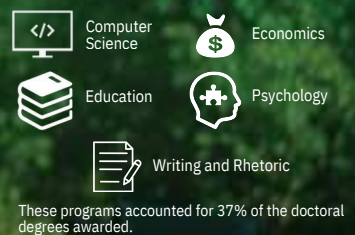

The top five undergraduate degree areas were

The top five master's degree areas were

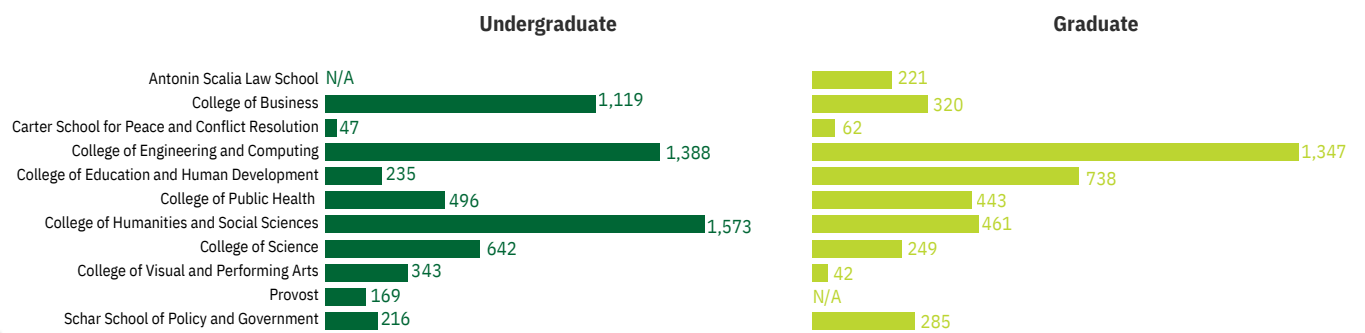

The doctoral programs with the most graduates were

Awards by Academic Unit

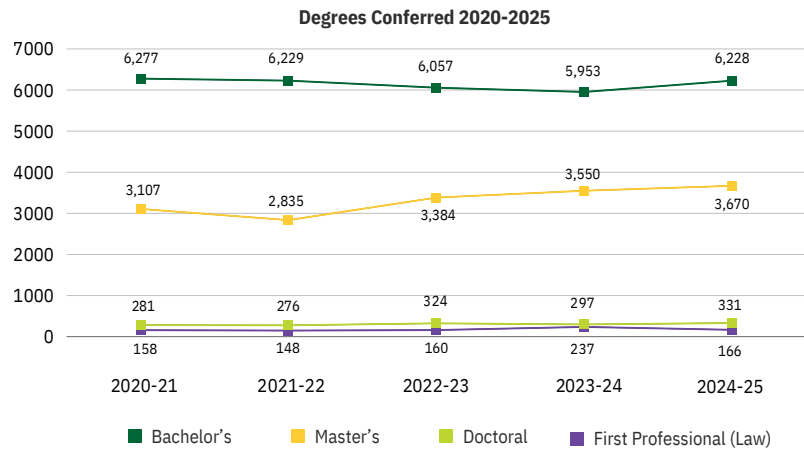

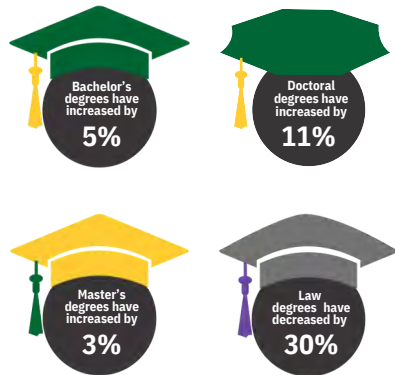

The College of Humanities and Social Sciences (CHSS) awarded 1,573 bachelor's degrees, accounting for 25% of all undergraduate awards in 2024-25. At the graduate level, the College of Engineering and Computing (CEC) awarded the most degrees (1,347; 32%).

2024-2025 DEGREE AWARDS (CONTINUED)

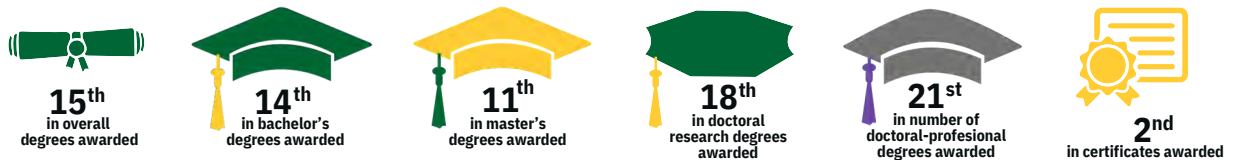

Trends in Degree Awards

The total number of degree awards increased over the last year. The number of bachelor's degrees increased by 5%, master's degrees increased by 3%, and the number of doctorates increased by 11%. The number of law degrees decreased by 30%. Over the last five years, George Mason has increased its degree production by 6%.

Peer Institution Comparison

Compared to its 25 peer institutions¹ in 2022-23, the most recent year for which data are available, George Mason ranked as follows:

Certificate Awards

In addition to the 10,395 degrees conferred during the 2024-25 academic year, George Mason awarded

Degree Programs

George Mason strives to continually develop new programs in areas that are cutting edge and serve the region, the Commonwealth, and global needs. In 2024-25, George Mason added

One new Bachelor's degree

Two new Master's degrees

Four new Certificates

These new programs and the graduates they produce will serve the needs of Virginia and the broader global community.

¹ The list of 25 peer institutions is approved and maintained as a benchmark for targeting comparative salary data by the State Council of Higher Education for Virginia (SCHEV). The current peer group was approved in July, 2011, and includes Arizona State University, Boston University, Florida State University, George Washington University, Michigan State University, New York University, North Carolina State University at Raleigh, Northeastern University, Rutgers University-New Brunswick, Stony Brook University, SUNY at Albany, Syracuse University, Temple University, University of Arizona, University of Connecticut, University of Florida, University of Illinois at Urbana-Champaign, University of Kansas, University of Maryland-College Park, University of Massachusetts Amherst, University of Minnesota-Twin Cities, University of Nebraska-Lincoln, University of North Carolina at Chapel Hill, University of Southern California, and University of Washington-Seattle Campus.
